

Definition: A sequence is an ordered list of real numbers

$$a_1, a_2, a_3, \dots = \{a_n\}_{n=1}^{\infty}$$

Sequences can be defined in a multitude of ways:

- General term: $a_n = f(n)$
- A recurrence formula (e.g., $a_{n+1} = 2a_n - 1$)
- A set: $X = \{x_1, x_2, x_3, \dots\}$
